CMS-1572 Home Health Agency Survey and Deficiencies Report

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an

existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Home Health Agency Survey and Deficiencies Report; *Use:* This is a request to revise form CMS-1572 by adding fillable text or check blocks to each data field, thus converting it to a fillable .pdf format. A previous version of the CMS-1572 form had been in a fillable format. However, when it was revised in the past, it was placed into a non-fillable format. We also added a new selection to item #7. The CMS-1572 form is used by State Survey Agencies (SAs) when surveying Home Health Agencies (HHAs) and to collect information about an HHA. These regulations were created by CMS under the authority of sections 1861(o) and 1891 of the Social Security Act (“the Act”).

In the Medicare and Medicaid programs, CMS is responsible for developing Conditions of Participation (CoPs) that facilities must meet to become eligible to receive Medicare payments. State survey agencies (SAs) conduct on-site surveys of Home Health Agencies (HHAs) to ensure that HHA facilities are in compliance with these requirements.

Surveys of HHA providers are intended to ensure and strengthen patient health and safety, to enhance quality of care by emphasizing outcomes rather than process, to implement the Omnibus Reconciliation Act of 1987 (OBRA 87), and to achieve more effective compliance with Federal requirements. The CMS-1572 HHA survey form reflects this fundamental change and directs surveyors to observe and monitor the provision of care in the home setting. HHA surveyors use the CMS-1572 form to assist and direct them in evaluating important information relating to the quality of services provided HHAs in the home setting. Moreover, the CMS-1572 form represents a deficiency-based approach to evaluating and reporting compliance. *Form Number:* CMS-1572 (OMB control number: 0938-0355); *Frequency:* Yearly; *Affected Public:* State, Local or Tribal Government; *Number of Respondents:* 3,833; *Total Annual Responses:* 3,833; *Total*

Annual Hours: 1,917. (For policy questions regarding this collection contact Caroline Gallaher at 410-786-8705.)
